

## METaL 2

### Project Description

METaL is a unique project funded by the EU's European Social Fund, through the Welsh Government. Our aim is to address a skills shortage in materials and manufacturing through the provision of work based learning leading to a general up-skilling of the workforce which will ultimately help secure sustainability for Welsh industry.

Visit [www.project-metal.co.uk](http://www.project-metal.co.uk) for a full list of the courses offered.

### Geographical Coverage

METaL is a pan-Wales project.

### Essential Eligibility Criteria

All participants must be in employment. All participants must live or work in the eligibility area.

### Specific Targets

To train 1350 participants over the lifetime of the project
